1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
Group I, claim(s) 1-3, drawn to producing SIDR to a bacterial agent.
Group II, claim(s) 4-8, drawn to transplantation using SIDR.
Group III, claim(s) 9, drawn to a method of treating Crohn's disease.
Group IV, claim(s) 10, drawn to a method of treating diabetes.
3. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. The inventions lack the same or corresponding special technical features because the inventions are obvious in view of the prior art cited in the search report supplied with the instant application (see document 371P(10/28/95). In addition, Wilson et al. (US Patent 5,872,154) teaches the administration of recombinant adenovirus containing vector(a viral infectious agent) and a selected immune modulator wherein the administered agents inhibit the formation of neutralizing antibodies and/or reduce CTL against said virally infected cells. Thus, said reagents can be used to induce "selective immune down regulation" (as per the definition of said term in the specification) against a pathogen. It would have been obvious that said method could have also been used to inhibit the formation of neutralizing antibodies and/or reduce CTL against other pathogenic organisms such as bacteria, etc.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
